

WESCORP ENERGY INC.

MANAGEMENT

SCOTT SHEMWELL

COO

2006 – present

Scott Shemwell brings over 25 years of experience leading turnaround and transformation processes for global S&P 500 organizations as well as start-up and professional service firms. Most recently, he worked at Strategic Decision Sciences, Inc. as CEO helping global clients tackle difficult strategic problems and attain operational excellence using a proprietary set of sophisticated tools. SDS merged with Wescorp Energy in September 2007.

Mr. Shemwell's unique background and expertise in oil-field management make him highly qualified to guide oil and gas companies in creating economical and efficient oil fields of the future. Prior to starting Strategic Decision Sciences in 2003, he directed Oracle's Energy Practice as vice president responsible for driving the strategic direction and business development efforts for Oracle's global energy and chemical business sectors. In 1997, Mr. Shemwell was brought into MCI System House to expand its energy practice. He also has industry leadership experience as CEO of Real-Time Data Solutions, Inc., managing director at Halliburton Corporation and line of business head at Sierra Geophysics, Inc.

Mr. Shemwell is recognized as an authority in technology, knowledge management, industry change, process change management/modeling and simulation, and logistics and operational supply chain management, having authored over 200 articles and presentations on these subjects. He is the author of *Essays on Business and Information*, a collection of short essays focusing on the relationship between business processes and information technology, written from his perspective as an energy industry executive and adviser.

He holds a Bachelor of Science in physics from North Georgia College, a Master of Business Administration from Houston Baptist University and a Doctor of Business Administration from Nova Southeastern University.
