

FOR IMMEDIATE RELEASE

## **Wescorp Energy and Cancen Oil Canada Working To Undertake New Project**

*CALGARY, Alberta*

*(Wednesday, December 16, 2009)* – Cancen Oil Canada Corporation, has entered into a non-binding Memorandum Of Understanding with Poly-Pacific International Inc. by which the parties express their mutual intent to enter into a formal agreement for Cancen to provide the technical and mechanical services to perform site restoration, including soil remediation, of an estimated 1800 abandoned wells.

Wescorp Energy Inc. (OTCBB: WSCE) and Cancen Oil Canada Corporation have agreed to work together to remediate the abandoned well sites in Alberta, Canada subject to Cancen and Poly-Pacific entering into a formal agreement. Cancen would be responsible for operating and managing and funding the operations, including the construction and deployment costs of all H2O Maxx and HCXT remediation units. The remediation project would deal with soil either contaminated with salt, hydrocarbons or both.. Revenue from each unit would be shared between Wescorp and Cancen. Upon initial operation of the remediation units, the revenue would be split 25:75 (Wescorp: Cancen) until 110% of the construction costs are repaid to Cancen. Thereafter, the revenue would be shared on a 50:50 basis.

The abandoned wells are located on land owned by three First Nations Bands, and are subject to a Joint Venture Agreement between Poly-Pacific International Inc. and CREEnergy Oil & Gas Inc. Under the terms of this Joint Venture Agreement, any formal agreement between Cancen and Poly-Pacific would have to approved by both CREEnergy and Poly-Pacific.

"We are pleased that Wescorp has the ability to design and construct transportable remediation units, scaled to offer different capacities of hydrocarbon throughput, which we believe would enhance the profitability of any site-specific work," commented Keith Talbot, CEO and President of Cancen Oil Canada.

"The combination of Wescorp's remediation technologies and Cancen's ability to identify new remediation business in western Canada is proving to be very valuable for each company," commented Doug Biles, CEO and President of Wescorp Energy. "We look forward to the possibility of working with Cancen to solve this client's reclamation and restoration issues."

### **About Wescorp**

Wescorp Energy Inc. ([www.wescorpenergy.com](http://www.wescorpenergy.com)) is an oil and gas operations solutions company focused on commercializing technologies that overcome tough operational challenges facing oil and gas operators today.

Wescorp shares currently trade on the NASD.OTC Bulletin Board under the symbol "WSCE".

## **About Cancen**

Cancen Oil Canada Corporation [www.cancenoil.com/](http://www.cancenoil.com/) Cancen specializes in the general cleanup and disposal of slop oil, tank bottoms, and crude treatment. By purchasing, re-processing and selling off-spec oil, Cancen is helping to ensure used oil is prevented from entering ecosystems. Cancen utilizes technology that has been proven across North America, to be effective in the highest range of oil/water/solids combinations in conventional and heavy oils.
